

## Tentative schedule for the Workshop in Analysis, December 8-10, 2023, Georgia Tech

During lunch breaks, the participants will be encouraged to go and eat lunch at one of the nearby restaurants. We recommend Mediterranean restaurant called Aviva and the dining hall with a few other places (including Mexican and Japanese) next to it, which could fit everyone. \

Note that on the Friday, the rooms are next to each other but it takes a couple of minutes to get from one to another.
